PROFESSIONAL SUMMARY

IT student and Full-Stack Web Developer with practical experience across 2 core web projects, programming, networking, and cybersecurity fundamentals. Skilled in Python, Django, PHP, JavaScript, HTML5, CSS3, Bootstrap, MySQL, SQL, Git, and GitHub, with training across 6 technical and professional learning areas including Cisco networking, cybersecurity, FortiOS, IoT, web development, and Microsoft Office. Strong problem-solving, troubleshooting, teamwork, communication, organization, adaptability, attention to detail, and continuous learning skills. Seeking junior opportunities in Full-Stack Development, Web Development, IT Support, Networking, or Cybersecurity within international and European environments.

TECHNICAL SKILLS

Programming & Web Development: Python, Django, PHP, HTML5, CSS3, JavaScript, Bootstrap, Responsive Web Design, Full-Stack Development

Database & Backend: MySQL, SQL, XAMPP, PHP Backend Development

Networking: Cisco Networking, Networking Fundamentals, IPv4, IPv6, VLAN, Inter-VLAN, DHCP, Routing, Switching, STP, LACP

Cybersecurity: Cybersecurity Fundamentals, Network Security, FortiOS, Security Fundamentals, Data Protection, Risk Awareness

Tools: Git, GitHub, Figma, Microsoft Office, Excel, PowerPoint

PROFESSIONAL EXPERIENCE

Freelance Voice Over — Italian Language | 2025 – Present

- Produced Italian-language voice recordings for online projects while managing communication, organization, and delivery requirements.
- Completed freelance work in Italian, strengthening communication, time-management, and attention-to-detail skills.

TECHNICAL EXPERIENCE

Web Development & Full-Stack Projects

- Developed 2 core web projects: a Coffee Shop Full-Stack Web Application and a Personal Developer Portfolio.
- Built responsive web interfaces using HTML5, CSS3, JavaScript, and Bootstrap across desktop and mobile layouts.
- Built PHP and MySQL web applications with database-driven functionality and backend integration.
- Used Git and GitHub to manage source code, organize project versions, and maintain development workflows.
- Configured XAMPP local environments to develop and test PHP-based applications.
- Translated interface concepts from Figma into structured, responsive web pages.

Networking & Cybersecurity Training

- Studied 7 core networking concepts: VLAN, Inter-VLAN, DHCP, IPv4, IPv6, STP, and LACP.
- Applied Cisco networking fundamentals covering routing, switching, and network communication.
- Completed training across 6 technical areas: Cisco Networking, Cybersecurity Essentials, FortiOS/Network Security, IoT, Web Development, and Microsoft Office.
- Developed foundational knowledge of cybersecurity, network security, data protection, and security risk awareness.
- Used structured troubleshooting and problem-solving approaches when working through networking and cybersecurity scenarios.

PROJECTS

Coffee Shop Full-Stack Web Application

Technologies: HTML5, CSS3, JavaScript, PHP, MySQL, XAMPP

- Developed a full-stack web application combining a responsive frontend, PHP backend functionality, and MySQL database integration.
- Implemented interactive pages using HTML, CSS, and JavaScript and tested application behavior in a local XAMPP environment.
- Applied database and backend programming concepts to support core application functionality.

Personal Developer Portfolio

Technologies: HTML5, CSS3, JavaScript, Three.js, EmailJS, Git, GitHub

- Developed and deployed a responsive portfolio to present technical skills, projects, and professional information.
- Implemented 3-language localization in Arabic, English, and Italian, together with dark/light mode.
- Integrated GitHub project information and an EmailJS contact form.
- Maintained the project with Git and GitHub and deployed it through GitHub Pages.

TRAINING & CERTIFICATIONS

- **FortiOS Administrator / Cybersecurity Training** — Network Security Track
- **Cisco Networking / CCNA Fundamentals** — Networking, Routing, Switching and Network Communication
- **Cybersecurity Essentials** — Cybersecurity Fundamentals, Data Protection and Risk Awareness
- **Internet of Things (IoT)** — Fundamentals of Connected Technologies
- **Web Development Training** — HTML, CSS and Web Development
- **Microsoft Office Training** — Word, Excel and PowerPoint

EDUCATION

Faculty of Industrial Technology and Energy — Fayoum Technological University, Egypt

Information Technology (IT)

Diploma Tecnico Industriale – Meccanica, Meccatronica ed Energia

Integrated Technical Education Complex — Egypt | Final Grade: **94/100**

LANGUAGES

Arabic: Native | English: B1 | Italian: B1
